**SOLVENT-BASED
HIGH SOLIDS FIRE PROTECTION
FOR STRUCTURAL STEEL**

SteelMaster | 60SB

STEELMASTER 60SB

This high-solid, single-pack, thin-film, intumescent coating is an excellent choice for different environmental conditions, and having passed the toughest testing standards around the world, this coating is one of our latest innovations in the SteelMaster range.

This coating ensures an excellent quality of fire protective coating in a range of different environments and temperatures, allowing for an extensive range of applications, offering 60 minutes of fire protection for architectural structures.

AREAS OF APPLICATION

Fire protection specially designed for structural steel exposed to external environments up to corrosivity category C4 (ISO 12944-2), with a compatible topcoat.

- Ready to use • Covers the majority of all steel sections
- Easy airless spray application • Consistent quality

60 minute solvent-based fire protection for structural steel.

EXAMPLES OF USE

- High-rise buildings • Energy industry • Airports
- Shopping centres • Sports stadia • Multi-purpose development blocks

- Meydan Race Course, Dubai, UAE
- Hull Football Stadium, Hull, UK
- Selfridges Birmingham, UK

PART OF THE STEELMASTER RANGE

This product is part of a range of products engineered to offer fire protection that brings out the beauty of your steel design.

Expressing steel as an architectural feature can be an intrinsic part of modern architecture. The structure can be the hero. Form and function work together in tandem to create architecture that can, quite literally, show its strength. With steelwork being brought to life as a feature of the building, SteelMaster intumescent paint can be applied to offer excellent levels of fire protection without the need for boxing in or using less aesthetically pleasing cementitious coverings.

GLOBAL COMPANY

The Jotun Group is one of the world's leading manufacturers of paints, coatings and powder coatings. Jotun's operations ensure the very best in paint systems and products to protect and decorate surfaces in the residential, shipping and industrial markets. Everything we do, from development to production, marketing, sales and consultancy for various paint systems and products to protect the property of our customers the world over.

SteelMaster intumescent paint can be applied to offer excellent levels of fire protection.
